Education

Nuh Mehmet Küçükçalık Anatolian High School
2016–2020

Hitit University – B.Sc. in Computer Engineering
2021–2025 (Graduate)

Professional Summary

Hello, my name is Erkan Yiğit. I am a graduate of Computer Engineering from Hitit University. As an engineer-to-be who is open to learning, I aim to contribute to technology and software projects. I am team-oriented and eager to learn new projects. During my university and internship years, I participated in several different projects and gained knowledge in Python, C#, Artificial Intelligence with Image Recognition, and Database Management.

Thanks to my ability to work harmoniously within a team, I have produced solutions that yield more efficient results. I am open to traveling and learning new things. In the summer of 2024, I seized the opportunity to work and improve my foreign language skills in the United States through the Work and Travel program.

Experience

Social Media Content Editor – Watchaces 01 Dec 2023 – 01 Jun 2024

- Produced Instagram post content for a watch brand.
- Supported homepage layout, visual design, and copy development.

Software Developer – Salon Koltuk 05 Mar 2023 – 27 Sep 2023

- Built a product-catalog style website including a database layer and inventory/stock tracking for a sofa retailer.

Computer Engineering Intern – Çamlıca Barkod 28 Jul 2025 – 19 Sep 2025

- Contributed to a cashierless checkout project spanning computer vision, machine learning, and web development.
- Responsibilities included dataset preparation, model training, backend service development, frontend interface design, and hardware integration.
- Gained practical experience in teamwork and project coordination alongside technical growth.

Skills

- Python, C#
- AI-based Image Processing / Computer Vision
- HTML, CSS, JS
- Database Management
- 3D Modeling
